

TORRANCE SCHOOL NOTES

NOVEMBER 24
All people interested in millinery should read the following announcement:
The adult millinery class will have its first meeting on Wednesday, November 22, from 3:00 to 5:00 p. m. Miss Working, an expert milliner, of Los Angeles will be the instructor.

people interested in the school will be invited to come and visit and inspect the regular work done in the Torrance school.
All work will be carried on in a regular way so parents and patrons of the school may see just what is being done.
On Monday, November 27 there will be no school, as that day all teachers of Torrance school will be required to visit other schools in order to observe the work done elsewhere.

TRAVELING HOME IS CONVENIENT

Charles and Helen Polley, playing on the vaudeville circuit, find it cheaper to travel in their own bungalow motorcar than to pay high prices for railroad travel and hotel accommodations. The Polleys have traveled all over the country in their car, a marvel of convenience, while their son David, known as the "Auto-Bungalow Baby" has never known any other home.

CARD OF THANKS

My sincerest thanks are extended to all those who were so kind and thoughtful during the illness and death of my beloved wife. I wish particularly to thank my good neighbors, the Woman's Mutual Benefit Association, and my fellow employees of the Pacific Electric for their kind words of sympathy and for their beautiful floral offerings.
GUS L. KING.

Walter Hiers May Sub for 'Wally' Reid

Walter Hiers probably will be chosen for the lead in the Famous Players-Lasky Film Corporation picture, "Mr. Billings Spends His Dime," in the place of Wallace Reid.
It is understood that the Lasky Corporation has notified Wallace Reid, who is ill, that unless he is able to start work on the picture by next Tuesday a substitute will have to be employed. "Wally" already has been forced by his illness to turn over the lead in "Nobody's Money" to Jack Holt.
The picture, "Mr. Billings Spends His Dime," was to be begun on Monday, but on account of Reid's illness will be held up at least one day.

The Range You'll Want

For Beauty, Service and Pride.

It's correct; distinctive; in the best of taste. You can't see the fine "workmanship" in the picture, but it's in the range; the years of service you get prove economy of all steel sturdiness and fine craftsmanship.

Beautiful round corners make it quite attractive. Notice how neatly designed it is to keep clean. They have the highest quality standards. To come in and see them will convince you.

LOMITA PLUMBING CO.,

PLUMBING and GAS FITTING REPAIR WORK A SPECIALTY

Lomita, Calif.

You Auto Know

That if the car stops dead in the road the first thing to do—after looking to see if there is a sufficient quantity of gas, oil and water—is to crank the engine, taking care that the gears are in neutral. If the engine turns over hard, this indicates trouble with either the lubricating or cooling system. If it turns over fairly easily, it is not necessary to search for troubles along either of these lines.

The next point to be taken into consideration is that of compression. This can be determined by opening the petcocks on all the cylinders save one and turning the crank two revolutions, noting if there is a resistance during one-fourth of the revolution in the two complete turns. Each cylinder should be tested in this manner and, if one is very weak, the trouble will generally be found in the exhaust valve, or in the inlet valve. The vacuum system leading from the gasoline tank should next come under suspicion and finally the ignition system and the spark plugs should be examined, remembering that, after all, the trouble may lie in such a "trifle" as a loose or wet wire or a speck of dirt in the carburetor.

Speakers Fight Recall In Long Beach

The first step by city officials and business men of Long Beach to combat the movement for the recall of City Manager Charles E. Hewes, to be voted on at a special election on the 29th instant, was taken last Friday night when speakers addressed several meetings urging that Hewes be retained.

At Edison school Mayor C. A. Buffum and Councilman George Beck addressed a meeting; at Fremont school the speakers were William Cover and Councilman Fillmore Condit; at Burnett school former Councilman Galen H. Welch and John N. Forsythe gave talks, and at Roosevelt school the speakers were Councilman Frank A. Downs and former Councilman Charles H. Stanley.

Taxpayer Attacks Wright Act In Suit

The first legal action against the constitutionality of the Wright prohibition enforcement bill, passed by the voters of the state at the last election, was filed last Friday in the Superior court of San Francisco by Lawrence P. Keane, a taxpayer. He asked that the police commission be enjoined from appointing patrolmen to enforce the act on the grounds that it is invalid.

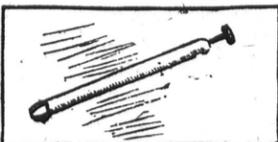

The appointment of twenty-five patrolmen at a salary of \$170 a month each has been proposed for the enforcement of an invalid measure, according to the complaint.

WHY BATTERY BECOMES WEAK

Drop in Voltage Occurs When Plates Have Absorbed Sulfur, Retarding Acid.

The drop in voltage or the discharged condition of a storage battery occurs when plates within the battery have absorbed the acid in the battery solution. When a battery is discharging this acid goes into the plates and forms a compound of acid and lead, called lead sulphate. It is when this sulphate fills up the pores of the plates, retarding the acid in its circulation into the plates that the battery becomes weak.

Finger Extension

Where the fingers cannot reach, a tool with jaw clamps will. This is a pencil-shaped instrument with a rod running through it holding four jaws at one end. At the other end a spring is compressed, which forces out the jaws. When the jaws are placed over the inaccessible nut or bolt the spring is released and the jaws take a firm hold.

AUTOMOBILE GOSSIP

Avoid overlubrication. Never race the engine. Commonest cause of overheating is lack of water.

In London there are 101,767 licensed motor drivers.

Tighten battery terminal nuts often, so as to maintain contact.

A hairpin will do the work of a cotter pin when the emergency arises.

Follow advice of manufacturer regarding grades of oil for lubrication.

Lamps should have bulbs of equal candle power, have clean reflectors and be properly focused.

Test the steering gear to see that it does not bind at any point and is thoroughly lubricated.

CREAM FOR CATARRH OPENS UP NOSTRILS

Tells How To Get Quick Relief from Head-Colds. It's Splendid!

In one minute your clogged nostrils will open, the air passages of your head will clear and you can breathe freely. No more hawking, sniffling, blowing, headache, dryness. No struggling for breath at night; your cold or catarrh will be gone.

Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relief comes instantly.

It's just fine. Don't stay stuffed-up with a cold or nasty catarrh—Relief comes so quickly.
